To Whom It May Concern:

We are a small business in Harrah, Oklahoma located on NE 23rd street. We greatly appreciate the consideration of the road widening project to both I-40 and the Turnpike for it would open many doors to our facility. Not only would we be more accessible to patients in the areas affected by this project but we would be able to attract more qualified licensed employees that have been discouraged with the current drive. We have employees that live south of Harrah and even up to Edmond that would benefit from these changes.

Please consider this project for it would greatly benefit the people of our community and those communities that surround us.

Thank you,

A handwritten signature in cursive script that reads 'Susan Hunt'.
