

"Rock Solid Genetics"

To Whom It May Concern:

In regards to District 2 Commissioner Mike Pearson's efforts to get Indian Meridian and Luther roads in Logan County paved, we at Limestone, LLC believe we would greatly benefit from this, as we own and operate 1,000 acres in Logan county as well as 13,000 acres in Payne and Lincoln counties. We are constantly transporting commodities and cattle down these roads, and the wear and tear our vehicles and equipment takes is enormous. This would also allow our customers better access to our feedyard division, which we have been rebuilding for the past two years.

In closing, I would just like to add that we would greatly appreciate any improvements and we feel that not only would our business benefit, but the small communities surrounding these roads would also benefit. If there is anything we can do to assist in these efforts, please feel free to contact us.

Sincerely,
