

## Meridian Vol. Fire Dept.

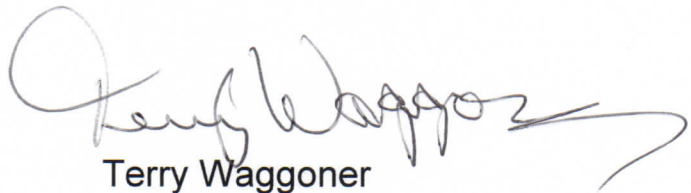

To Whom It May Concern,

As fire chief for the Meridian Volunteer fire Department our fire district is approximately 90 miles in coverage area. Anything that we could get as far as paving roads in our fire district would help us in our response time in a time of need. It is not a question of "IF" an emergency may occur but "When" an emergency will occur.

Adding to this with paving these roads it will save wear and tear on the equipment that tax payers has helped purchase. Not only will this benefit Meridian Fire Dept. it will help the Logan County fire departments because Meridian is the staging area for the Logan County Task force enroute to Eastern or Southeastern Oklahoma for fires and other disasters.

The Meridian Volunteer Fire Dept. supports Dist. 2 Commissioner Mike Pearson in trying to get Indian Meridian and Luther roads paved in the eastern part of Logan County.

Sincerely,

A handwritten signature in black ink, appearing to read "Terry Waggoner", with a long horizontal flourish extending to the right.

Terry Waggoner

Meridian Fire Chief
